

We help

financially eligible
patients receive free
prescription medicines donated by
Johnson & Johnson companies.

The Patient Assistance Program

Our free prescription program is available to anyone who meets the requirements listed below:

- You have been prescribed a Johnson & Johnson-donated medication
- You meet the eligibility income requirements for the product(s)
- You don't have insurance of any kind, including government or private insurance
- You live in the United States or a US territory
- You are being treated by a US licensed doctor as an outpatient

How the program works

- The Patient Assistance Program covers over 35 prescription products
 - The full list of currently available medications can be found at www.JJPAF.org/medications
- Once you meet program requirements and are approved, you'll receive your medications for up to 1 year
- You may be able to reapply to the program annually
- It's free to apply, and you only need to complete 1 application

If you don't have insurance
and can't get access
to Johnson & Johnson
companies' medications,
we may be able to help.

About the Foundation

The Johnson & Johnson Patient Assistance Foundation, Inc. (JJPAF) is an independent, nonprofit organization. JJPAF gives eligible patients free prescription medicines donated by Johnson & Johnson companies.

Last year, we distributed over 634,000 units of medication, helping more than 94,000 people receive the medications they need.

None of this would have been possible without the generosity of our donors:

- Actelion Pharmaceuticals US, Inc.
- DePuy Synthes Mitek Sports Medicine, a division of DePuy Orthopaedics, Inc.
- Janssen Biotech, Inc.
- Janssen Therapeutics, Division of Janssen Products, LP
- Janssen Pharmaceuticals, Inc.

Visit us online

We invite you to navigate and explore www.JJPAF.org on your computer, tablet, or smartphone. Website features include:

- User-friendly navigation
- Medication search functionality
- Step-by-step interactive process to check patient eligibility
- Patient application form
